

We invite you to attend the 7th International Symposium on Polyelectrolytes, Polyelectrolytes 2008, which will be held at the University of [Coimbra](#) from June 16th to June 18th, 2008. This follows successful events in Germany (1995), Japan (1998), France (2000), Sweden (2002), USA (2004) and again Germany (2006), which have made ISP conferences the major international forum for presentation of polyelectrolyte research.

The symposium will span all topics relevant to polyelectrolytes. Sessions are scheduled around the following subjects:

- Biopolyelectrolytes;
- Formulations and gels;
- Conformation and counterion binding;
- Self-assembly;
- Synthesis;
- Transport and rheology;
- Conjugated systems.
